HMC Welcomes Back Previous Director of Education

(Honolulu, Hawaii) May 31, 2017 – Hawaii Medical College has hired Charis Matsuwaki as Director of Education. She began at the college as the Pharmacy Technician Program Coordinator in 2010 before being promoted to Director of Education, a position she held for two years before moving to another organization.

“I’m thrilled to return to Hawaii Medical College as Director of Education because I get to work with an amazing team that strives to give our students the knowledge and tools necessary for a career in the medical field,” Matsuwaki said. “Everyone has the ability to succeed in their healthcare professional future, but it starts with the hardest step, the first step to start.”

Matsuwaki graduated from Hawaii Pacific University’s nursing program in 2009. She has over a decade of experience in the healthcare field and is an active member of the Waikiki 2000 Lions Club, serving as vice president since 2015.
